Summary — Available for a 3-month internship (internship agreement). I build applications from backend to frontend (Java, PHP, Flutter, PostgreSQL).

Projects

Excel-like Spreadsheet 2024 - 2025
- Desktop application in **Java** / **JavaFX** (MVVM architecture, Builder pattern).
- Recursive cell formulas, operator precedence, import/export in a custom file format.

Auction E-commerce Website 2025 - 2026
- **PHP** backend (MVC) with **MySQL** and transactions for bidding and purchases.
- Search, filters, AJAX requests in **JavaScript**, Post-Redirect-Get pattern.

Restaurant Reservation App 2025 - 2026
- **Flutter** frontend (Dart), **PostgREST** REST API, **PostgreSQL** database.
- JWT authentication, management of restaurants, services and customers.

Secure Corporate Network 2025 - 2026
- WAN / LAN / DMZ network with **pfSense** and **VirtualBox**.
- **Windows Server** 2019 with **Active Directory**, organizational units and GPOs.

Theater Ticket Booking Ongoing
- **Spring Boot** (backend), **Angular** (frontend), PostgreSQL.
